

AI Digital Service System – Simple Explanation

1. Idea Summary:

Ye ek master system hai jisme client apni requirement dalta hai aur system automatically website, app, SEO aur marketing ready karta hai.

2. Client Requirement Flow:

Client form bharega (business type, website/app, marketing). Ye data master app me save hota hai.

3. Design & Development Flow:

Requirement ke hisab se template select hota hai, content auto generate hota hai aur website/app ready hoti hai.

4. Marketing & AI Content:

AI project ke hisab se text, image, video aur ads ke liye content banata hai.

5. Update & Fix System:

Har module ke saath update, add new feature aur fix button hota hai.

6. Client Dashboard:

Client apna result, content aur updates dekh sakta hai.

7. Business Use:

Is PPT/PDF ko meeting me use karke aap apna idea easily explain kar sakti hain.
